

The members of the Interstate Technology & Regulatory Council (ITRC) Mass Flux Team wish to acknowledge the individuals, organizations, and agencies that contributed to this technology overview.

As part of the broader ITRC effort, the IDSS Team effort is funded primarily by the U.S. Department of Energy. Additional funding and support have been provided by the U.S. Department of Defense and the U.S. Environmental Protection Agency. ITRC operates as a committee of the Environmental Research Institute of the States, a Section 501(c)(3) public charity that supports the Environmental Council of the States through its educational and research activities aimed at improving the environment in the United States and providing a forum for state environmental policy makers.

The Mass Flux Team wishes to recognize the efforts of specific team members, who provided valuable written input in the development of this document. The efforts of all those who took valuable time to review and comment on it are also greatly appreciated.
